### GoDaddy.com Web Developer

GoDaddy.com is one of the top domain providers in the world, existing since 1997. I am proud to say I have had the honor of developing countless websites while working under them. This was my first company I officially worked for while building websites. Many websites I showcase are created and hosted by GoDaddy.com

### Mojang Minecraft Marketplace Content Marketer

Worked directly with Mojang, the creator of one of the world's most popular video games, Minecraft. Created and marketed DLC content.

### HunchFree.com Digital Marketing Agency Partner

Partnered with Hunchfree.com to create and design many websites, including most notably the hottest new restaurant chain in Livonia: BadBrad's BBQ.

### Wizard of Ads Partner

Yet another digital marketing agency that I have worked with that focuses on growing businesses that lack in online presence through SEO optimization and Ad management.
